English Rubber Specialities

We believe, judging from the mass of correspondence received on preventatives, that the " Rolled Malthus Sheaths " are the **Best, Surest,** and most frequently used of any known appliance, being a safeguard perfectly harmless to either sex, and also a prevention against disease.

Rubber " Sheaths " possess the advantage of being portable and lasting, will not shrink to any appreciable extent when kept warm (*as all rubber goods should be*) or become sticky and useless.

CHARLES & CO.'S
"Eclipse" Paragon Sheath

Having been requested by a number of our patrons to produce a Sheath of a texture between that of the combined Pessary and the ordinary Malthus Sheath, we have pleasure in introducing our Paragon Sheath, which has several special and important features; and we are confident that it will give every satisfaction. It is similar in shape to the Combined Pessary and Sheath; but in place of the Spring Rim at the opening it has a rolled Band for adjustment. It is manufactured from fine cut Sheet Elastic, which, after moulding, is vulcanized and medicated, and like the Combined Pessary and Sheath, it can be used with complete confidence for a year or more. They are made in three sizes. When ordering please say Single or Double Top.

IMPROVED MAKE

Seamless Elastic Malthus Sheaths

Being the actual manufacturers of the above goods, we can confidently recommend them to our numerous customers. They are made from specially prepared pure medicated American Blubber Rubber. They will not contract with heat or moisture, and will keep in any climate. They are so soft and thin that the sense of touch in no way impaired, their flexible and silky nature rendering them most natural in use. These goods are recommended by the medical faculty to married people as being the most natural manufactured article that has ever been introduced. Each sheath is specially tested on our patent testing machine.

We can therefore GUARANTEE each and every one.

MADAME FROMONT'S COMPOUND

Non-Greasy, Soluble,
Double Strength Quinine.

This Compound has been specially produced for use with all Rubber Contraceptive Appliances, and is especially recommended for use with any Rubber Pessary. It acts as a lubricant and an additional safeguard, and being Non-Greasy, its chief attraction is that it will not perish or injure the Rubber in any way.

Sold only in Collapsible Tubes.
CLEAN, HYGIENIC AND ECONOMICAL.
Price 2/6 per tube, 3 tubes for 6/6 Postage Free.

MADAME FROMONT'S
Rose Soluble Quinine Pessaries

Invented by her, but copied by many.

Owing to many of our customers objecting to the odour of Cocoa Butter, we are now manufacturing a special line of **Treble Strength** Soluble Pessaries. These are made with a **Neutral Basis,** and are highly perfumed with

OTTO OF ROSES.

This is perfectly harmless and in no way interferes with the action of the Pessary. Being harder than Cocoa Butter they will **stand any climate.**

Price **2/9** per box of **12,** 3 Dozen **7/6**

The Pessaries never vary, being specially prepared according to the recipe of a well-known physician for Madame Fromont. Don't pay a higher price for an Imitation.

As used by several Clinics.

What FULL - END REINFORCEMENT *means* !

Charles "L - P" Brand

ANY tubular thin walled rubber product expands first at its weakest part. Wart-end prophylactics invariably swell excessively when blown at the point immediately surrounding this heavy " drop " or " wart," thus indicating its weakness, and demanding its classification as a " second " or blemished product. FULL-END REINFORCEMENT reveals as indicated in the illustration, a heavier uniform strength throughout the full-end. Liquid Latex Prophylactics selected for dispensing under the brand name appearing on this package are chosen entirely from " full-end Reinforced " stock, and are warranted to be of uniform perfection.

By insisting upon Latex Prophylactics of *this* brand you secure *first quality* merchandise free from end warts and other blemishes.

"CHARLES" PERFECT WHIRLING SPRAY

UNOBTAINABLE ELSEWHERE

Every Woman should have one for Cleanliness

THE highly polished vulcanite syringe pipe is five inches long. The **whirling spray tip** is removable for cleansing. The adjustable soft rubber **guard** closes the tubing inlet hermetically, preventing the injection from escaping, and if desired, causes its return by suction into the bulb when pressure on same is removed. In this way a douche can be taken in a moment without spilling the fluid, or wetting the clothing. The rubber **nozzle cap** prevents leaking if the syringe is carried filled for use when travelling.

The **"Charles" Perfect Spray** cannot throw a solid stream, but discharges a volume of **whirling spray,** producing no **shock,** and is absolutely **harmless.**

Pipes that discharge a central or solid stream are condemned by physicians as exceedingly dangerous. The fluid when thrown forward with force, is liable to enter the system, causing thereby extreme pain. and colic, or alarming symptoms of nervous prostration and collapse. The **"Charles" Perfect Spray** discharges a half-pint of hollow whirling spray, which is more cleansing and effective than a gallon of injection used with any other syringe.

SIMPLE, PRACTICAL, EFFECTIVE, RELIABLE.

After use always rinse syringe thoroughly, and stand up on nozzle end to drain and dry.

This Whirling Spray is a distinct improvement. It is simple in its construction, having no involved mechanism to get out of order, easily filled, and so clean and convenient to use

Low priced rubber articles are never cheap : usually unsatisfactory from the start, and very liable to split and leak after very little use ; on the score of economy alone they are best avoided.

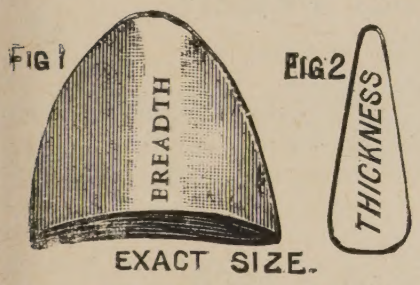
We are Sole Agents for
MADAME FROMONT'S
TREBLE STRENGTH
Soluble Quinine Pessaries

These Pessaries never vary, being specially prepared according to the recipe of a well-known physician for Madame Fromont.

DON'T PAY A HIGHER PRICE.



We guarantee these to be harmless to the most delicate constitution and a PERFECT PREVENTIVE. These Pessaries are of guaranteed strength. The Pessary contains nothing to cause irritation or injury in any way. From the experience of many years during which we have sold these Pessaries we can recommend them with complete confidence.

We place this Contraceptive in our list because we believe it to be the best yet discovered.

It is several years ago since it was first suggested to us by a customer that we should make our own, so we took up the sole agency for Madame Fromont's.

Soluble Quinine Pessaries.

To this we replied that we thought the different makes already on the market sufficient to meet the demand ; since then our business has greatly extended, and the sale of this kind of preventive enormously increased, and with this increase came a great many letters making the same suggestion.

Every One is Guaranteed.

We gave the matter a good deal of thought, and came to the conclusion that we should be neglecting our business if we longer resisted the many pressing invitations of our customers. We therefore made all necessary arrangements ; we experimented a long time before we were satisfied that we had them absolutely perfect. We can now conscientiously place them before our customers and the public. We are firmly convinced that if they are used strictly in accordance with directions, failure is impossible. They are packed in boxes of a dozen, and each box bears our registered TRADE MARK.

A Lady writes :—" I have used your Pessaries for years. They have always given me great satisfaction."

Our Combination Sample Parcel

25/- Carriage Paid to your door

The question of birth control (i.e., limitation of family) is to every husband and wife a matter of vital and supreme importance. A large and increasing family is a drain, not only on the health of the mother—which is, of course, the husband's chief consideration—but also on the financial resources of the home. It is only a reasonable argument that where the income is sufficient and adequate to properly maintain 2, 3 or even 4 children according to circumstances, there arises a time of grave and acute anxiety at the prospect of still further increases.

It therefore resolves into more or less of a duty to your present family to seek perfectly safe, correct and reliable means, by the adoption of some practical method, to prevent any unwelcome additions, and the object of this combined sample parcel is to enable the husband and wife to form an exact idea as to which method of prevention is most suited to their own individual requirements and incidentally affords them the opportunity of proving the wonderful quality and reliability of our goods which we as actual Manufacturers are able to offer.

RARE BOOK.

ARISTOTLE'S WORKS

The only unabridged edition in England—a faithful reprint of the famous French edition, now in Paris Museum. The whole of the Coloured Plates are published intact from the original hundreds of recipes upon numerous diseases, including some of the most valuable essays written by the ancient philosopher Aristotle. It is a complete Family Physician, containing his Book of Problems and Remarks on Physiognomy. The portion dealing with the "Errors in Marriage" is a masterpiece in itself, as is also the chapter on "Eccentricities" and "Monstrosities" in nature, with wonderful and faithful drawings of the same. There are some thirty illustrations and coloured plates in this valuable edition. It must really be seen to be believed.

OTHER EDITIONS ARE WORTHLESS.

BEAUTIFULLY BOUND in Coloured Cloth and Gilt.
With all the Original Coloured Plates and Illustrations.
